Intro- At SWAC we believe that Pilates is for every BODY. We uphold Joseph Pilates vision. SWAC Pilates Intro class is the perfect way to experience Pilates and our studio! Enjoy a 30 minute, full-body session with one of our talented instructors-each of whom hold a national Pilates certification. This session is a great intro to our equipment, the studio, the workout, and our amazing staff. One class only to those new to our Pilates program.

Pilates 1- This class offers a variety of exercises that are slower paced and focus on form and alignment. If one has any limitations or injuries this class is the perfect level to attend as there is no standing on the reformer. The use of the tower allows one to focus on the importance of a strong core while utilizing the springs. If you are new to the Pilates method of training, you are encouraged to stay with this class for at least 8 sessions to familiarize yourself with the language and modality of training.

Pilates 2- This class offers a higher level of competency and intensity of the exercises including standing on the reformer. The exercises are also of a higher resistance of springs challenging the body. The Tower and other small equipment are utilized for variety and functionality. If one has balance or height issues, then this class is not recommended.

Senior Pilates- This class is designed for the active aging client that has limitations or injuries that they can work around. The exercises are slowly paced and focus on breath and lengthening. There is no standing on the reformer. There is a lighter spring load that is joint friendly. Each student can work at their own pace with the guidance of a certified trainer.

Pilates Fit- This class is faster paced and may utilize the jump board and other small equipment. It is not recommended for anyone with knee issues. The exercises may have bouts of cardio to challenge the body utilizing handheld weights. This is a higher intensity class for the seasoned Pilates enthusiast.
